WAGES AT PULLMAN.

Evidence Before the Strike Investigation Commission.

TESTIMONY OF A SEAMSTRESS.

Reductions Came So Frequently That Before the Strike the Poorer Workers Earned but Fifty Cents a Day—The Reductions in Other Departments.

CHICAGO, Aug 17.—Before the strike commission yesterday Miss Jennie Curtis, president of the Girls' union at Pullman, testified that her father had been in the employ of the Pullman company for fifteen years until shortly before his death last year. At the time of his death he was delinquent in his rent to the amount of $60. The company compelled her to assume the debt and sign a contract to pay it out of her wages at the rate of $3 a week. Some weeks she had so little left from her wages that she could not pay board. In 1893 the poorest seamstress earned $1.50 a day. Before the strike the best of them had got down to seventy and sixty cents a day, while the poorer needlewomen could make only forty to fifty cents.

Theodore Rhode representing the painters' department, said he had worked for the company twelve years, and had been gradually cut down until he could not make $1 25 a day. The foremen abused the men, and the management experimented with the materials until piece workers could make nothing. He had not applied for work since the strike because the company compelled every man to surrender his card of membership in the Railway union and sign an agreement to have nothing to do with any labor organization for five years.

R. W. Combes of the freight car shops, had been in the employ of the company for ten years. Where men in that department were able to earn $2 50 a day, piece work, they were not able to make more than sixty-eight cents a day in March of this year. Between 1885 and 1891 there had been no reductions, but in November of 1893 came a cut that made a difference of $18 a freight car, and $6 of this fell on the car carpenter. The witness said he had $7 left from his February wages after he had paid his rent, and with the $7 50 he was expected to support a wife and two children. After hearing the evidence of Combes the commission adjourned for the day.

Bloody Riot at a Revival.

BRAZIL, Ind., Aug 17.—At a negro revival west of the city several drunken toughs endeavored to break up the services by assailing the participants with clubs and stones. A general fight followed, in which razors and revolvers were freely used. Several persons are reported severely if not fatally wounded. The affair has caused much excitement among the colored people.

Heavy Whisky Tax Receipts at Cincinnati.

CINCINNATI, Aug 17.—The receipts of government taxes here yesterday aggregated $45,[illegible]. Of the last sum over $[illegible] was from Cincinnati alone. There remain in bond in this district 1,6[illegible],000 gallons of whisky, all of which will be taken out before the new bill becomes a law.

Infernal Machines in Berlin.

BERLIN, Aug 17.—The Lokal anzeiger asserts that infernal machines were discovered in the homes of many anarchists who have been arrested in this city recently. The point to note that this indicates that a series of outrages, to be perpetrated simultaneously, was intended.

Dr. Hand's Diarrhœa Mixture.

"My baby is subject to severe attacks of diarrhœa. During the last sickness Dr. Hand's Diarrhœa Mixture was freely given and an immediate cure resulted. It would have required a dozen visits of a physician as on former occasions. I believe Dr. Hand's Remedies would have saved the life of the child I lost, had they been within my reach at the time of its sickness."—Mrs. F. H. Bennett, 752 New St., Camden, N. J. 25c. THE NATIONAL CYCLISTS.

New Records in the One Mile and Five Mile Races.

DENVER, Aug 17.—The national racing tournament of the League of American Wheelmen was inaugurated here yesterday in the presence of over 10,000 people. There was some disappointment over the non-appearance of J. S. Johnson, the Minneapolis champion. His wheel broke in the mile open trial in the morning, and he did not qualify.

The records lowered yesterday are those for the one mile novice, one mile open and five mile national championship. Lee Richardson, of Chicago, went against the half mile record for backward riding, and reduced it from 2.47 to 2 25. The mile novice was paced by Caffin and Phillips, and the result was the fastest mile ever ridden in a novice race.

The first championship race was that of a mile. Twelve men started. Sanger went clear of the bunch in the back stretch, but gave up in the straight. Bald, the winner, is from Buffalo.

The fourth event, the one mile open, created the greatest enthusiasm of the day. Sanger took the lead and held it until 200 feet from the tape. Here Sanger, Titus, Brown and Bald were all lapping each other. Sanger had the pole or was close to it, and Titus, coming very fast, cut inside of him. Sanger's wheel was seen to wobble for an instant, and Titus and Brown finished ahead of him. Titus was disqualified for fouling, and Brown was given first place, with Sanger second and Bald third. Titus' time was 2.10 3-5, which is the record for a scratch race. Brown, the winner is a Cleveland man.

In the two mile handicap Barnett, of Lincoln Neb., who had a handicap of 100 yards, passed the leader in the second mile and won by 100 feet.

In the five mile championship seven men started. Titus won, and beat the world's record for five miles in competition, making the distance in 12 19 1-5. Murphy, of Brooklyn, was second, and Ziegler, of California, third.

A Negress Arrested for Arson.

NYACK, N. Y., Aug 17.—Mary Andrews, a colored cook who claims to have been a cook in the White House during President Cleveland's former administration, is in the new county jail charged with arson. She was employed in Mr. C. O. Tiffany's beautiful residence here as head cook. Yesterday she was notified that her services were no longer needed. She went to her room and shortly afterward the house was discovered to be in flames. The house was saved from destruction by heroic efforts of the firemen. An angry crowd surrounded the prisoner as she was being conveyed through the streets to the station house, and it required great efforts to save her from bodily injuries.

The Famine in Corea.

WASHINGTON, Aug. 17.—Mr. Ye Sing Soo the Corean minister, received by mail a letter from a friend in Chemulpo, which gives some particulars concerning the famine in Corea. The latter says that the conditions of the people in the famine stricken districts is most distressing. Of the eight provinces in the kingdom, but three are producing any crops, and it is in these provinces that the recent rebellion in Corea existed. Men and women wander from place to place homeless and friendless, living on the street. The opinion is expressed that since the war between China and Japan has broken out the north and the people will be more secure than before.

Forgetfulness Causes a Serious Wreck.

TOPEKA, Kan., Aug 17.—Passenger train No. 7 on the Rock Island road crashed into the Kansas river just before it reached the depot here, and wrought havoc in the wreck. Engineer Sid Hall, of Topeka, was instantly killed. Fireman Peter Fisher, of Silver Lake, was badly scalded and bruised. Baggageman Perry Coulson, colored, was also injured.

Fireman Killed. Engineer Injured.

ALBUQUERQUE, N. M., Aug 17.—No 3 passenger train going west on the Atlantic and Pacific railroad, was wrecked by a washout at Cubero. The engine was derailed. James Horton, fireman, was killed and William Morris, engineer, was dangerously injured. So far as known no passengers were injured.

Colored Hogue for Congress.

LYNCHBURG, Va., Aug 17.—The Republican convention for the Sixth district yesterday nominated J. Hampton Hogue for congress. Mr. Hogue was recently appointed by President Cleveland as consul to Amoy, but the nomination was canceled and Hogue joined the Republican party.

The Doctors Endorse It.

At a regular meeting of the Genesee County (N. Y.) Medical Society, the physicians of the county passed a vote of thanks for samples of Gilmore's Aromatic Wine, which had been presented to the society, and said that they recognized the remedy as being adapted to a large class of summer diseases. Physicians everywhere recommend this excellent medicine, especially to their lady patients. Sold by all druggists for $1.00 per bottle.

The Trouble Over.

A prominent man in town exclaimed the other day: "My wife has been wearing out her life from the effects of Dyspepsia, Liver Complaint and Indigestion. Her case baffled the skill of our best physicians. After using three packages of Bacon's Celery King for the Nerves she is almost entirely well." Keep your blood in a healthy condition by the use of this great vegetable compound. Call at John J. Chambers, 21 West Main Street opp. Runyons grocery, sole agent, and get a trial package free. Large sizes 50c and 25c.

IN SENATE AND HOUSE

The Free List Bills Referred to the Senate Finance Committee.

WASHINGTON, Aug. 17. — The unexpected generally occurs in the senate. Yesterday a resumption of the sensational scenes of Wednesday over the disposition of the four house free list bills, placing sugar, coal, iron ore and barbed wire on the free list was anticipated, but not a word was spoken on the subject. Everything was as calm as a May morning. After two hours spent in a rather interesting debate on a resolution of Mr. Kyle, the South Dakota Populist, to prohibit the sale of liquor in the senate wing of the Capitol during the recess, and a resolution of Mr. Call, of Florida, for a senatorial trip by the committee on patents, a vote was taken without debate on Mr. Harris' motion to refer the sugar bill to the finance committee, and it was so referred by a vote of 32 to 17. An analysis of the vote shows that sixteen Republicans, thirteen Democrats and three Populists voted for the motion, and seventeen Democrats against it. Eight Republicans, one Populist and one Democrat were paired in favor of the motion and three Republicans and seven Democrats against. The majorities in favor of referring the free coal, iron ore and barbed wire bills were even larger than on free sugar.

The members of the house have been dropping off so quietly and surely that at no time yesterday was there a quorum present, and requests for leave of absence on account of "sickness" and "sickness in family" were received with derisive laughter. The senate bill repealing the clause in the new tariff act placing alcohol used in the arts on the free list was passed after debate. At 4 45 o'clock the house adjourned until Monday.

Will Not Unseat Thompson.

TRENTON, Aug 17.—The summing up in the Thompson contested election case was concluded yesterday afternoon by ex-Judge Rankin, counsel for Mr. Thompson. The committee then adjourned, to meet in Jersey City Sept. 7, to prepare a report to submit to the legislature at its October session. No formal views were exchanged, but private conversations indicate that the report will not favor unseating Thompson. The Republican members will, however, in their report charge that gross fraud is were practiced, but will admit that the committee could not secure proof of a sufficient nature of illegal votes to overcome Thompson's big majority.

Royal Warrant for American Swindlers

CHICAGO, Aug. 17.—A royal German warrant arrived here yesterday for the arrest of a gang of expert swindlers who have been working European cities, and who are thought to be hiding in Chicago. The warrant calls for the arrest of seven well dressed and highly educated men, mostly Americans, whose names are given as follows: George Gray, Henry S. Fenton, Henry Morris, Stanley Brown, William Thomas, —— Hurst and Thomas Butler. The men are said to have traveled in magnificent style, and reaped a rich harvest by means of bogus letters of credit.

Mr Whitney Coming Home.

NEW YORK, Aug. 17.—Hon. William C. Whitney has booked passage on the Majestic, which will sail from Liverpool on Aug 22. There has been some talk of nominating Mr. Whitney for governor this fall, but according to his friends this is all gammon, as the ex-secretary of the navy is out of politics, and is more interested in business enterprises than in any political advancement, especially this year.

A Self Confessed Firebug.

KANSAS CITY, Mo., Aug 17.—J. M. Logan, a self confessed firebug, was arrested here yesterday. He says he has been starting fires in various towns all over the country for some years. He mentioned Providence, R. I., and Rock Island as places he had started his biggest fires. He glories in the recital of his incendiarism. It seems to be a mania with him. He has served several terms in penitentiaries.

To Succeed Governor Tillman

COLUMBIA, S. C., Aug 17.—The reform convention yesterday nominated John Gary Evans for governor and Dr. Timmerman for lieutenant governor. This is equivalent to election, as the conservative Democrats are having nothing to do with the election. The rest of the ticket will be nominated at a primary to be held Aug. 28. Evans is sixty years old and is the author of the dispensary law.

Dallas' Latest Murder Mystery.

DALLAS, Tex., Aug 17.—Last evening an unknown man was found dead under the Trinity river Commerce street bridge, from which high structure he had been thrown over the railing by unknown parties, and his neck broken. His body was badly bruised by blows. His pockets had been rifled of everything except a small knife and a five cent piece. There is no clew.

The Puzzle Solved.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and feels as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

CLEVELAND'S VACATION

The President Suddenly Leaves for Gray Gables.

HE IS SUFFERING FROM MALARIA.

Dr. O'Reilly, His Physician, Says a Few Days of Salt Air and Rest Will Recuperate the Chief Magistrate Sufficiently to Renew His Official Duties.

NEW YORK, Aug 17.—President Cleveland arrived in Jersey City yesterday at 1:02, and a few minutes later he sailed for Gray Gables on board the lighthouse tender John Rogers. The president journeyed from Washington in President Roberts' private car. He was accompanied by Captain "Bob" Evans and Dr. O'Reilly. Captain Debbins, of the John Rogers, met the party, and they were conducted to the elevator by Station Master Keefer. No person was allowed near the president except the gentlemen named, and as the elevator disappeared from sight the passengers made a rush down stairs to catch another glimpse of him. Escorted by the policemen the party nastily walked to the Adams Express pier, where the steamer was waiting and as soon as they got on board the vessel moved out and headed for the East river en route for Buzzard's Bay.

The cause of the president's sudden departure for Gray Gables was given out by Private Secretary Thurber after the chief magistrate left Washington. Mr. Thurber said:

"The president left this morning for a few days' absence, under the advice of his physician, in the hope of shaking off an attack of malaria, from which he has been suffering for several days. Yesterday the attack culminated in fever, but which was under control this morning. Dr. O'Reilly, his physician expresses no doubt that a few days of salt air and rest will recuperate the president sufficiently to renew his official duties, and he will return to Washington by the middle of next week. He has gone to Gray Gables, and is accompanied by Dr. O'Reilly."

The president, before leaving Washington, took no action on the tariff bill beyond sending it over to the secretary of the treasury for a report as is customary with revenue bills.

It will be necessary for the president to be back in Washington by Tuesday next. The resolution continuing appropriations expires on the preceding day, but the sundry civil bill has not yet been signed, and all appropriations carried by it for last year will cease on Monday unless the president returns and gives the bill for the current year his approval. The river and harbor bill also awaits the action of the president, and there is much speculation as to whether he will approve it or not. Many of the appropriations carried by it will cease if it is not approved by Tuesday.

A Notorious Outlaw Shot Down.

PORT GIBSON, I. T., Aug 17.—The notorious outlaw and escaped convict, John Fields, is dead. He rode into Braggs, a small town near here, and was advised to leave at once. Instead he went into the store of T. R. Malden, where a deputy sheriff named Johnson undertook to arrest him. Fields tried to kill the officer and Johnson called on bystanders for help. J. Lingston fired two shots and Fields ran out and fell dead within a few feet of where he killed a Cherokee named Red Bird a year ago for which crime he was serving a fifteen year sentence at Tallequah, which he escaped about two months ago.

Like a Tale of Olden Time.

CHATTANOOGA, Tenn., Aug 17.—Mrs. Henry Gray, wife of a well known farmer living on Tennessee river seven miles below the city, disappeared in a very mysterious manner last week. Wednesday she returned a ghost of her former self and tells a startling tale. Tom Moss, a young mountaineer deeply infatuated with her at the point of a pistol forced her to accompany him to the cave at Stone mountain, where he kept her until she escaped and came to this city. Mississippi has fled to the wilds of Stone mountain and is beyond hope of capture.

Employers Demand Reduced Wages

PHILADELPHIA, Aug. 17.—Yesterday's session of the conference between the representatives of the United Green Glass Blowers of the United States and Canada and the wage committee of the Manufacturers' association was spent in an effort to reach some agreement regarding a scale of wages. The employers wanted a reduction to meet the tariff changes of the Wilson bill, and the wage committee were unwilling to hear the entire burden of the altered scale. After trying for hours to come to an agreement the conference adjourned until today.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the uninary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by J. E. Mills, druggist, Middletown, N. Y.

Women say that a meal tastes better when prepared by some one else, and that is just the reason why Simmons Liver Regulator is in such favor. It is already prepared in liquid and powder form. You don't need to make a tea. Another reason for this favor is that Simmons Regulator is better than Pills for Billiousness, Sick Headache, Constipation and Indigestion. Sample package powder, 25 cents.

THE KING OF SIAM DEAD.

An Enlightened Monarch Who Promoted Justice and Tranquility.

VICTORIA, B. C., Aug 17.—Dispatches per steamer Tacoma announce the death of the king of Siam. Her majesty's steamship Rattler has been dispatched to Siamese waters to anticipate possible trouble over the succession.

The dead king who reigned for more than twenty-six years was named Chulalongkorn. His sovereign but his family name was Sourdeten Phra Paramindr Maha. He was born Sept. 21, 1853, succeeded his father on Oct. 1, 1868, and was

THE LATE KING OF SIAM.

generally allowed to be a well meaning and intelligent prince. He showed himself anxious to improve the condition of his people, even going so far in his desire to ascertain their wants as to wander about the streets of his capital in disguise, playing the part of a modern Haroun-al-Raschid, and some amusing stories are told of the scant courtesy he met with from many of his subjects.

Enlightened, humane and high minded, the king promoted justice, concord and tranquility, and put an end to many bad old customs. He may be said to have at least partially abolished slavery in his dominions by a proclamation liberating all children of slave parents on their attainment of 21 years.

THE CASE OF EZETA.

The Consul at San Francisco Favorable to the Refugees.

SAN FRANCISCO, Aug 17.—New and unexpected complications have arisen here in the Ezeta case. It became known today that warrants for the arrest of the refugees have been in San Francisco since Tuesday, but owing to dissensions among the local representatives of the government of San Salvador the documents cannot be served. The gunboat Bennington continues to cruise off the Heads, beyond the three mile limit, while the lawyers who are representing the San Salvadorean government are endeavoring to patch up the affairs of the local consulate.

The trouble here is due to the fact that the consulship is held by a man who owes his appointment to ex-President Ezeta, and is still loyal to the deposed president, though the new government has recognized him as its official. Carlos Yrungoyen is the local consul. Nearly three weeks ago he left San Francisco suddenly and went to New York, and it is said now that his purpose was to meet ex-President Ezeta when he should arrive there.

Soon afterward Vice Consul Kelley departed for Mexico, leaving the affairs of San Salvador to be looked after by Marino, who formerly represented San Salvador here. Like the consul and vice consul, Marino is friendly to the Ezetas and will do nothing to jeopardize their cause. As a result the warrants of arrest are lying in Consul Yrungoyen's office, and there is no one who will officially place them in the hands of the United States marshal. Consul Yrungoyen is speeding back to San Francisco as fast as steam will carry him, but those in a position to know declare he can be depended upon to do nothing that would imperil the Ezetas.

Fitzsimmons Ready to "Put Up"

TRENTON, Aug 17.—Commissioner James J. Corbett and Bob Fitzsimmons the middle weight champion, are both in this city and material hands have been trying in successfully to get them to meet each other. Corbett said to an Associated Press reporter that he would not accept a challenge from Fitzsimmons, who the champion said, was looking for cheap advertising. Fitzsimmons he added, must first send an open challenge to the world, and if he obtains a reply then Corbett will take it up, but not otherwise. Captain Glore, manager for Fitzsimmons, says that the money is ready to be put up whenever Corbett says he will cover it.

The Revolution in Peru.

LIMA, Aug 17.—President Caceres has sent reinforcements to the northern provinces to attack the stronghold of the insurgents and is doing his utmost to check the revolution. If the insurgents succeed in resisting the attack of the government troops the situation will become serious. Should the rebellion be suppressed the president says that he will propose the adoption of measures to facilitate immigration, with a view to the development of the agricultural districts.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Vives Junction she was taken down with pneumonia, succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at McMonagle and Rogers' Drug Store. Regular size 50c. and $1.00.

EXPLORER WELLMAN.

He Discusses His Failure to Reach the North Pole.

WILL TRY IT AGAIN NEXT YEAR.

Professor Owen B. French, of the Coast and Geodetic Survey at Washington, Surveys a Large Part of the Coast and Adds Several Capes to the Map.

TROMSOE, Norway, Aug 17. — Walter Wellman, with his crew of the crushed steamer Ragnvald Jarl, arrived here on Wednesday by the fishing yacht Berntine, Captain Johnsen from North Spitzbergen. All the members of the party are well. Discussing the failure of the expedition to reach the pole Mr. Wellman said to a representative of the Associated Press.

"After the loss of the Ragnvald Jarl and the consequent breaking up of my line of retreat I was compelled to modify my plans for the summer's work and make sure of being able to return to the coast of Spitzbergen earlier than intended, though the expedition reached within a few miles of the 81st parallel on May 12, eleven days from Tromsoe.

"The season had then changed to the other extreme. North of Seven Islands, situated at the extreme north of Spitzbergen, as far as we could see, were masses of heavy, unbroken ice, which appeared absolutely impassable.

"The expedition then turned its face east along the northeast land, and though the northeast gales quickly broke up the ice which had promised to afford smooth and easy traveling the whole northeast land was explored.

"The scientific men of the party made many interesting observations in geology and natural history. Professor Owen B. French, of the coast and geodetic survey, Washington, accurately surveyed a large part of the coast. Among the points added to the map by virtue of the discoveries made during this survey are Capes Gresham, Whitney, Armour and Scott and Walsh Island.

"On July 1, with seven men and an aluminum boat, I started to force my way north over the pack ice. But I was compelled after several days of frightful struggle with the ice to give up the attempt.

"On July 4 I started to return to Walden Island, crossing Dove bay. We were all compelled for hours to wade through water waist high. The screwing of the pack ice threatened to destroy the boats and sledges, but though they were subjected to the hardest usage the aluminum boats came through uninjured.

"We reached Walden Island July 22, where we waited a fortnight in vain for open water, and on Aug 4 decided to push through the ice.

"The attempt which was a most dangerous one, was wholly successful, and our four boats reached Law Island on Aug 6, where we sighted the Berntine. Eventually we hired her to convey our party to Tromsoe. We sailed from Low Island on Aug 7, and reached Dane's Island on Aug 8. There we took off Professor Oyen, the geologist, and Hyerdahl, the sportsman from the University of Christiana, and the stores which they were guarding for us.

"Though we were unable to get as far north as we hoped in 1894 on account of the lateness of the season, and the bad nature of the season, I am determined to try hard to reach the pole in 1895."

Threatened Lynching in Philadelphia.

PHILADELPHIA, Aug 17.—David C. Wiseman, [illegible] years old, attacked Nellie Davis, [illegible] on the street last night and dragged her into a vacant lot and attempted to assault her. The girl's cries attracted a man who shot at Wiseman and [illegible] him. Wiseman was afterward captured by a posse of citizens, among whom a lynching was threatened. Wiseman is in charge of Night Inspector Fox at the police station rather than the Moyamensing prison.

Emma Goldman Released.

NEW YORK, Aug 17.—Emma Goldman, the anarchist, who on the 5th was released today from the penitentiary on Blackwell's Island. She entered the prison ten months ago and at the session of jury having found her guilty of making an incendiary speech in Union square to the unemployed. Imprisonment, it is said, has had no effect on the woman's principles, and it is probable that she will agitate more determinedly for anarchism than ever.

Stabbed by a Playmate.

POTTSVILLE, Pa., Aug 17.—An 11-year-old boy named Nice was brought down from Girardville and lodged in jail, to await the result of injuries inflicted by him on another boy named McDonald. The boys quarrelled while playing, and Nice drew a pocketknife and stabbed McDonald in the stomach and between the ribs. McDonald is lying in a critical condition, and it is not thought possible for him to live.

You and each of you are hereby cited personally to be and appear before our Surrogate, at his office, in the village of Goshen in said county, on the 10th day of September, 1894, at ten o'clock in the forenoon of that day, to attend the probate of a certain instrument in writing, purporting to be the last will and testament of said deceased, bearing date the 26th day of June, in the year of our Lord one thousand eight hundred and ninety four, on the application of S. Albert Ball, claiming to be the executor thereof; which said last will relates to and is offered for probate as a will of real and personal property.

And if any of the persons interested be under the age of twenty-one years they are required to appear by their guardian, if they have one, or if they have none, that they appear and apply for one to be appointed, or in the event of their neglect or failure to do so, a guardian will be appointed by the Surrogate to represent and act for them in the proceeding.

In testimony, whereof, we have caused the seal of office of our said Surrogate's Court to be hereunto affixed.

(L. S.) Witness Hon. Roswell C. Coleman Surrogate of our said county of Orange, at Goshen in said county, the 26th day of July, A. D., 1894.

SPRING VALLEY, Ills., Aug 17.—The big strike of miners has ended by an agreement between the coal company and the strikers as to terms. The men resume work next Monday.

NUGGETS OF NEWS

Idaho Democrats nominated J. R. Stevenson for governor.

The report of a revolution at Montevideo, Uruguay, is unfounded.

A dispatch from Berlin says four fresh cases of cholera were reported in east Prussia yesterday.

Samuel R. Russsell, the oldest man in Gettysburg, Pa., died yesterday of old age. He was born in 1801.

In a speech at Brockville, Ont., Grand Chief Arthur, of the Locomotive Brotherhood, strongly condemned Eugene V. Debs.

Mrs. Forster, the widow of John Forster, the English historian and biographer of Charles Dickens, died in London yesterday.

The national senate confirmed these postmasters: J. E. Dougherty, Haverford; G. F. Myer, McKeesport; M. S. Longaker, Pottstown; Albrecht Knecule, Norristown; Emil Holl, Media; John L. Cummings, Mansfield; John H. Ossenbeck, Bradford.

Crushed to Death in a Sewer Trench.

SOUTH BEND, Ind., Aug. 17.—The big trunk sewer being constructed in Michigan avenue caved in, and several workmen were entombed at a depth of twenty-five feet. All were rescued with but slight injuries except Henry Leder, a Belgian, aged 24, from Monne, Ills., who was crushed to death by the mass of falling dirt and timber.

Big Carpet Works to Resume.

CARLISLE, Pa., Aug. 17.—The Stephens & Beetem carpet factory of this place, the largest textile establishment in this part of the state, will resume operations on Monday after a protracted idleness, giving employment to a large number of hands.

Culberson for Governor of Texas.

DALLAS, Tex., Aug. 17.—The Cleveland Democracy, headed by George Clark, rode over the free silver sixteen to one ratiolites by a vote of 471 to 425. Had the minority report for free silver at the ratio of sixteen to one report been adopted there is a probability that the straight Cleveland men would have toted the convention. Congressman David B. Culberson was nominated for governor by acclamation.

This Matter of Darning

doesn't amount to much, with the women who use **Pearline**. Most of it has to be done because you persist in rubbing things over the washboard so. You have to, to get them even passably clean, if you wash with soap in the old way. Use **Pearline** and you'll save the darning. You haven't rubbed the things to pieces, and you won't have to mend them. And another kind of darning won't suggest itself, either, for you haven't tired yourself out to the cross point with the hardest of women's work.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—*send it back.* 411 JAMES PYLE, New York.

"America's Greatest Men and Women."

AMERICA'S GREATEST MEN AND WOMEN.

MR. WILSON TALKS.

MY Name is Wilson; I do an insurance business on LaSalle street, in Chicago Ill., and I live in Evanston, Ill. Evanston is what was originally a scattering population on a pretty point on Lake Michigan, esteemed years ago far from the city of Chicago, but now one of the varied towns which may go within it by vote of the population.

I am married and have a wife and one child. That child is a boy (I suppose I should feel the same solicitude if it was a girl), and I have a father's natural fancies as to what must be the best thing to give that child the right kind of intelligence, and so divert his course that he may succeed in life. I have studied a great deal upon the subject. My own experience would not be of great value, because I have succeeded only to the limit of the average man and am barely established; still. I own the house and lot upon which I live, and am feeling perfectly safe in meeting the exigencies of the year. I want the boy to take a broader view than I did, to be a bigger man in the world. I have studied how to teach him to do that, and he has done pretty well, as far as the preliminaries go. Now, I have thought over what I should say to him and have sometimes been puzzled. I could not very well tell him what to do. I wanted to tell him what I needed but what I did not learn myself when I was of his age, and what my father did not know how to tell me, or else was not thoughtful enough to do so. I wanted to tell him how to follow the example of those who have succeeded at the present time and under the circumstances which ordinarily affect a young man struggling in this Republic established on this comparatively new world to-day. I wanted to tell him just what he had better do to get along well, and to point out to him what had been done by the people who were successful at the present time.

Of course, the record of the people of any time past would not be of so much value, because circumstances must necessarily have been different when they were alive. I feel confident, though, that if I could learn, some way and somehow, what the people who are so successful to day have done and how they did it, I could give to my boy such advice as would make his own life at least as far removed from failure as justified by the natural ability he may possess.

I looked around for some authority which I might consult in order to give him the facts most essential with this idea of mine in mind, but I could find none until I discovered that a great publishing firm in Chicago had decided to bring out a book giving the photographs of all the people who are prominent in America to-day. Here was what I wanted. The book, as I have learned, is going to be published in 16 parts, 16 pages to each, with a recent photograph on each page of some active leading American man or woman of to-day, while underneath appears the story of that same person's life—the story telling what that person did, and how the ends attained were eventually accomplished. Here was what I wanted; here was what I needed in various ways; here was what I was certainly seeking in order to obtain the information with which to educate my boy ank secure for him that knowledge which will give him a source of thought and make him prominent in the world.

I have the first sheets of this work. It is a graphic story of America's Greatest Men and Women, told in each instance on a single page underneath a photograph of recent date, which conveys to the eye an idea of what that person is. To me the photograph tells even more than the suggestive record beneath; and yet it is odd how in each instance the correct story corresponds with the expression upon the face which is reproduced in the portrait above. I do not know how the series will end. I know very little about this new feature of the newspaper people; I know nothing about the publishers and their expectations, but I do know this: that if the series so begun should be continued to its practical, ordinary good sense end—and I don't care whether that will include 200 or 700 of America's Greatest Men and Women, which is the title of the book—I do know this, that for the ordinary, active and alert business man—I will certainly say far more for the student or the literary man, or the politician or the statesman—for all these I will say it will be simply the most valuable and the most remarkable book produced in modern history. The wonder is that some one has not thought of it before. Yet no one seems to have done so since the days of Plutarch. Plutarch knew something. That shrewd old fellow knew that all who would get out of the drift, all who would accomplish great things, wanted to know every detail of the lives of those who had better luck or more courage or a broader brain than their fellows; but I am no authority on these points. I only know that there is produced a second Plutarch's Lives, that its biographies are shrewd, graphic and curt, and written without bias and without prejudice. I only know that there was a Plutarch—God bless the old fellow—and that there is this modern work.

This is the work I am going to give to my boy. I am going to make him read it thoroughly. The work is announced as consisting of 16 Parts, with 16 pages and 16 photographs in each part, and when bound, the whole series will make a great volume of 256 pages, the like of which has never been equaled. It is the story of the personal character of the men and women who are making the nation's history at this particular time. What a work this is! Do you imagine that I would miss it for my boy, or, incidentally, for myself?

AN ECCENTRIC CANDIDATE.

Hugh Cameron Has Many Unique Claims to Distinction.

The laurels of sundry sockless and hirsute statesmen are in danger, for there has arisen in Glen Barn, Douglas county, Kan., an aspiring candidate for congressional honors who rides a mule when he makes stump speeches, who not only scorns socks, but boots and shoes as well, and whose whiskers are luxuriant beyond all precedent. The name of this unique individual is General Hugh Cameron, and his appearance and history well bear out the assertion that he is the oddest character Kansas has ever known.

HUGH CAMERON.

His home is three miles from Lawrence, on the Kaw river, at what is known as Cameron Bluff, and where he has lived for years known to his neighbors as scholar, soldier, celibate and vegetarian. He was born in Pennsylvania about 68 years ago and is a relative of the Camerons who have been so prominent in Pennsylvania and national politics for years past. Over 30 years ago, when he was still in the vigor of young manhood, he appeared at Lawrence. He built a rude cabin, mingled little with his neighbors and lived as a hermit because the girl he loved jilted him on the day set for their nuptials.

He declared that he would never marry, and he never has. He swore he would work 20 hours a day, sleep four and eat no meat, and a Kansas newspaper man avers that he has faithfully followed this routine. He also swore that there would be whiskers on the moon before he would shave his beard or cut his leonine mane, and his pictures furnish prima facie evidence that he has also kept this vow. He braids his hair and whiskers and coils the braids around his neck. When his whiskers are at large, they tickle the grass as he walks along. When he wants his mule, he uses one of his braids as a lasso, it is said, but this is without doubt a campaign lie.

At the outbreak of the war Cameron was commissioned captain of Company F, Second Kansas cavalry, and served with gallantry throughout the war, leaving the service a lieutenant colonel and brevet brigadier general. He calls himself an independent tramp candidate for congress, nominated by the George Washington corps of home protectionists, and says that in his campaign the golden rule and the decalogue will be as carefully observed as possible under existing partisan demoralization.

RIVAL WOMAN CANDIDATES.

Mrs. Flower and Mrs. Smith Both Seeking the Ballots of Illinois Voters.

One of the most interesting features of the Illinois state campaign is the fact that Mrs. J. M. Flower and Dr. Julia Holmes Smith are rival candidates for the office of trustee of the University of Illinois. Mrs. Flower was nominated by the Republican state convention, and her rival was placed in the field by the Democrats. The women of Illinois vote for school officers and hold school offices, and the probability is that a large vote will be polled this year by the fair holders of the limited franchise.

Mrs. Flower was born in Boston. Her father, Samuel E. Coves, was an intimate friend of Franklin Pierce, and when Pierce was president lived in Washington. She was educated at Portsmouth, N. H., and at Vassar Collegiate institute, Brooklyn, and afterward removed to Madison, Wis., and taught in the high school and preparatory school of the university for four years. In 1863 she married Mr. Flower, who was a Madison lawyer. The couple removed to Chicago, where Mrs. Flower has been prominent in educational and charitable work for over a score of years. She is an earnest advocate of manual training and is particularly interested in the education of poor children.

MRS. FLOWER. MRS. SMITH.

Mrs. Smith, it is said, enjoys the distinction of being the first woman to have her name placed on a political state ticket in Illinois. She was born in New Orleans, but received her education in New York, where she became the wife of John S. C. Abbott, the well known historian. Upon the death of her husband three years later Mrs. Abbott removed to New Orleans, where she taught school for several years. In 1871 she married Sabin Smith, who later became general manager of A. T. Stewart's wholesale dry goods house in Chicago.

The following year Mrs. Smith studied for the degree of M. D. at the Boston university and in 1877 finished her medical education in the Chicago Homeopathic college. She practices her profession in Chicago and is a member of the consulting staff of the Baptist hospital. She had charge of the exhibits of 11 states at the New Orleans Cotton exposition and was superintendent of the northwest department. She is a veteran public speaker and promises to make campaign speeches that will stir the Democratic blood.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A Vicious Negro Murderer.

SELMA, Ala., Aug 17.—Nathan Polham, colored shot and killed George Phillips, at Marion Junction, and escaped recently Yesterday he returned and went to the house of a negro that he was jealous of, and not finding him at home opened fire on the family Two negro women and two children were his victims One woman and one child are dead, and the other two are not expected to live The murderer has so far eluded the officers.

Murdered by His Son.

CLARESVILLE, Tenn., Aug. 17.—From Riverside just over the Kentucky line, comes news of a murder resulting from a domestic quarrel Edwin Lemasters and his wife indulged in a dispute, the woman finally threatening her husband with a shotgun. Upon the husband's threat to knock her down if she did not drop the weapon a son, W L. Lemasters, shot his father dead. The boy escaped, but if caught will be lynched

The Satanita a Winner.

RYDE, Isle of Wight, Aug 17.—The race of the Royal Yacht club for the Town cup, valued at $500, was won by Satanita, with Britannia second and Vigilant third. The Vigilant was jockeyed out of the race, the Britannia frequently blanketing her in order to keep Satanita in the lead. It is announced that the match race between the Vigilant and the Britannia will certainly be sailed tomorrow.

UP TO CONCERT PITCH.

A Business Man Gives His Experience and Tells How He Gets Along Nicely Without Going Away.

"No vacation for me this year."

Mr. J. Z. Clinton a prominent business man seemed quite cheerful as he made this remark.

"No," he said, "hard times and business cares prevent my usual holiday; but, let me tell you I am not disappointed as I would have been in former years."

How is that?

"Because I am enjoying sound health. I never felt better in my life. In spite of overwork and anxiety, I manage to keep strong and vigorous and instead of suffering from tired feelings, dyspepsia, and nervousness as I did in years gone by, I feel like a new man. Even now I shudder as I think of the miserable symptoms I once experienced. What were they? Well, generally a headache in the morning; dull heaviness or aching at the base of the brain; wakefulness, loss of appetite and disgust with food; loss of mental energy and interest in ordinary duties and business; restlessness and anxiety without any assignable reason; bad breath; giddiness; palpitation of the heart; sallowness of the skin; coated tongue and gradual failure of strength and ambition. I consulted doctor after doctor and with but one exception I received the same advice, namely: to take a three months' vacation. This I could not do. At last, I consulted another physician and the result of our conversation was that he advised me to take predigested food about which I had heard a great deal. But I had had some experience with cod-liver oil and feared that this food might be something like it and equally sickening. I said 'no,' I preferred to try something else. The doctor, however, persisted. 'This food,' he said, 'is not a drug or a medicine nor a greasy mixture like cod-liver oil. It is a pure starch food, totally different from anything that has ever been introduced before. Its flavor is delicious, it is most refreshing, and it is stimulating to the weakest stomach. Take my word for it, and you will find Paskola is just what you need. So upon this recommendation I commenced taking Paskola."

And what has been the result?

"A decided victory for Paskola. Before many days had passed, I felt much better. All the miserable symptoms I had formerly endured passed away, and I found that by taking Paskola I could eat well and digest well. I also gained a healthy appetite and a feeling of fresh vigor that was simply wonderful. I took Paskola with great relish, for I found that, as the doctor had said, it has a very pleasant taste. Unlike all other health foods it causes no bloating sensations. Being pre-digested, it is absorbed by the system the instant it is swallowed thus imparting nourishment immediately. The result is, I no longer suffer from indigestion, while under the nourishing influence of Paskola my weight increased from 120 to 155 pounds in the past two months. I find it a splendid thing to take at noon, after a morning's hard work and at night when business is ended. It seems to take away that feeling of weariness and nervous strain from which most business men suffer. As I say, it has done so much for me and made me so strong and well, that I have no need for a vacation even if I had the time and opportunity to take one."

Such statements as this are being continually made by people of all classes and such unsolicited praise is the best evidence that Paskola owes its wonderful popularity to merit alone.

You can obtain Paskola of any good druggist and a free pamphlet will be mailed by the Pre-Digested Food Co., 30 Reade street, New York.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middletown, on

Tuesday, August 28th,

one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor will visit Middletown one day each month Office hours from 10 a. m. to 6 p. m.

ANNOUNCEMENT

—OF THE—

MIDDLETOWN CLOTHING MANUFACTORY,

39 WEST MAIN STREET.

TO THE PUBLIC AND MY FRIENDS:

I beg to announce that since severing my connection with Mr. Geo. W. Young, as cutter, I have completed a course in a New York College for Designing and Cutting, and have now joined interests with Mr. E. G. Adams, of the Kingston Clothing Manufactory, for the systematic production, in Middletown, of High Class Tailoring. With the facilities of a modern equipped manufactory at my command, I am satisfied that I can produce results in clothing which will be a revelation to this city, and upon which I am willing to stake my reputation. I respectfully solicit your patronage,

ERNEST A. BURCH.

Yes, we are going to manufacture Clothing. Solid Clothing for business men. Fine Clothing for fastidious men. Economical Clothing for economical men. Good Clothing for all men. Clothes that will fit. Clothes that will wear. Better Clothing at less cost than you have been accustomed to pay.

We shall make a specialty of Business Suits, ranging in price from $15 to $20, and Trousers from $3 to $5.

Our factory facilities are first-class, our machines running by power. The work will be in the hands of skilled workmen. The whole will be directed by an expert. Every garment will be guaranteed.

Hitch a tailor shop to a manufactory, and what is the result? Two profits. You may come to the factory and take one.

Do you forgo the pleasure of wearing a suit made to order because ready-made are cheaper? You need do so no longer. We shall make a Good Suit for $12.50.

Or, perhaps, you are of the sort who want the best, and have the money to buy it; very well, we have it, but from the price you may think something wrong about it. Come and satisfy yourself as to that. If two or three dollars is any object on a pair of Ten Dollar Trousers, come to us.

We have a large assortment of Suitings and Trouserings to show, all new and fresh. We shall make Trousers to order for $3, we shall make them for $10.

Much has been said of late about home manufactories. Very well, here is one. You may have all your clothing made right here at home. We shall employ a large number of hands.

We invite the attention of the business men of this city to this fact:—You spend your money with them, they will spend it with you. That's business.

We invite the Board of Trade, every man of them, to come and inspect our styles and leave their measures.

We invite the Honorable Board of Aldermen, corpulent and lean, to come and get some good clothes.

We invite the Firemen, Societies, Clubs and Unions to have their uniforms made at home.

We invite professional men,—Clergymen, Lawyers, Doctors, and all the rest, come and prove us, and see if we cannot please you.

We invite the Mechanics and Laboring Men of this city, who require strong, honest clothing, made up in correct style, to patronize us.

We invite our Neighbors and Friends; we will not impose upon you.

Open for Business Saturday Noon, August 18th, 1894.

DEMOCRATIC STATE CONVENTION.

The Democratic electors of the State of New York are requested to unite in sending three alternate delegates from each Assembly District to a State Convention, to be held at Saratoga Springs, on Tuesday, Sept 25th, 1894, at 12 o'clock noon, for the purpose of placing in nomination candidates to be voted for at the ensuing general election, and to transact such other business as may properly come before the convention

The General Superintendent of the Kings County Insane Asylums has called the attention of the county authorities to the necessity of making extensive additions to the asylum buildings to accommodate the steadily increasing number of patients. His recommendation is taken by the Brooklyn *Citizen* as a text for an article urging that the county save the expense of new buildings and also a large proportion of the cost of maintenance by turning over the asylums to State care.

Business men, no matter what their politics, rise above partisan considerations when they talk of the new tariff, and with scarcely an exception say that they look for the prompt and permanent return of prosperity as a result of its enactment. Business men might be assumed to know something of business conditions, but Republican editors credit them with no knowledge of the subject and continue to dip their pens in the same old anti Democratic tariff ink that they have been using for months and to write the same old calamity articles that they did in 1892.

BEFORE THE RECORDER.

Got Drunk and Forgot His Horse—Was with a Farmer who Lost Horse, Watch and Money

A Circleville man drove under Murphy's sheds at the Bell House, yesterday morning, and tied his horse. In the wagon was a crate of live chickens. At 7 o'clock, last night, the man had not returned and the police were notified. The horse and chickens were taken care of and the man soon found, but in such an inebriated condition that he was locked up. This morning he was let off with a fine of $3.

Officer Durham arrested a man who was sleeping off a drunk in an Erie freight car. Fined $3.

A drunken man was found asleep in the doorway of Katzinger's New Idea, about 8:30 o'clock, last night. He was locked up. While he was waiting in police court for a hearing, this morning, a farmer arrived in town and complained to Captain Grier that he had lost a horse, watch and $21 in money, and identified the prisoner as the man who had been with him yesterday, and whom he suspected of having taken the missing property. The prisoner denied all knowledge of the missing property, but was held pending an investigation by the police. The latter soon ascertained the whereabouts of the horse and wagon, which was found in the possession of Liveryman Wilson, who said that the owner of the rig had left it there himself, about 2 o'clock in the afternoon. The Recorder thought enough punishment had been inflicted on the prisoner and allowed him to go without a fine for intoxication.

Another berry huckster called at police headquarters, this morning, and complained that a man, whose name he did not know, but whom he had left in charge of a team of horses and his wagon containing five bushels of huckleberries, had disappeared with the property. A description of the team was taken and the man, who was much the worse for liquor, started in search of a brother, whom he claimed could tell the name of the party suspected of stealing the rig. Up to 3 o'clock he had not put in a re-appearance at headquarters and the case is supposed to be similar to the one above related.

Correspondence ARGUS and MERCURY.

—Our young people are indulging in picnics. They spent Wednesday in Mr. Harding's woods, and though the day was cloudy the party enjoyed a pleasant time.

—The Excelsior Club held a very pleasant and successful party at Caudebec Park, Tuesday evening. Barnes orchestra of three pieces furnished the music.

—At the annual school meeting for election of trustees Mr. John Pierson was re elected. A new floor is to be laid in the upper room and other necessary improvements made before school opens,

—The Dramatic Club of Otisville will give the play entitled "The Deacon," this, Friday evening, Aug. 17, in VanDuzer's Hall. There is much in the work of this society which should be of intereet to every resident of Otisville, and the club extends a cordial invitation to all to be present.

—Mrs. Asa Ogden, of Port Jervis, was in town, Wednesday, calling upon friends.

—Mrs. Wm. Smith, of Brooklyn, spent Monday and Tuesday with Mrs. N. W. Beyea, returning home on the Mountain Express, Wednesday morning.

—Miss Julia Brown, of Cuddebackville, called on the Misses Beyea, Wednesday.

—Rev. S. R. Queen and wife are again at the Manse. Mrs. Queen has been absent over seven months. She will be gladly welcomed by her many friends.

—Mrs. Frasier and children, accompanied by Miss May Davenport, left for Waverly, N. Y., Tuesday, where they will spend a few days visiting Mr. and Mrs. Frasier, grandparents of the children.

—Mr. Ben Writer had the misfortune to lose one of his valuable horses last week.

—Some of our people, who intend keeping boarders, have been having their homes photographed by our amateur artist, Bert Sayer.

—There are now a number of summer boarders here, twenty being entertained at the Mountain House of Mr. G. B. Horton.

—Mr. and Mrs. Charles Hoyt, accompanied by Mr. A. W. Dodge and wife, drove to the new club house above Wurtsboro, Friday last, returning in the evening. As Mr. Hoyt has a fine pair of carriage horses they undoubtedly had a very pleasant trip

—Mrs. Isaac Writer, of Carbondale, Pa., arrived home, Wednesday evening. This is her first visit since she left home a bride, in the early spring.

—Mrs. Hanford Greenleaf, of New York, is a guest of Mrs. Greenleaf.

LIGHT OR HEAVY WHEELS.

Cyclists This Summer Have Decided That What They Want Is Good Roads.

The light wheel problem, which this year more than ever is absorbing the attention of cyclists, is a pretty difficult one to solve says a contemporary. Everybody wants to ride a light wheel, but everybody does not want to ride one that will not stand the pounding of a rutty road or an occasional turn ble. Wood rims are being extensively ridden, but they are not as strong as metal rims and never can be. A set of many wheels that weigh from 18 to 24 pounds are being ridden over all kinds of roads this season in Brooklyn and out on Long Island, and a large percentage of them are coming to grief. The rider of one has to be as careful of his mount as if it were a delicate race horse. Universal use of featherweight wheels will scarcely come until the roads are far better than they average today. England has had the light wheel craze and has got pretty well over it. American wheelmen like the light machine and don't want to give it up. Hence they are crying for good roads and accomplishing much in that direction. It is maintained by many good riders that over an ordinary road a 30 pound wheel is easier and faster than a 20 pounder because it is steadier and does not lose way in bounding over a hummock or a rut. There are many who predict either better roads, or a return to heavier wheels next year, or else a more extensive use of aluminum in the construction of bicycles.—Brooklyn Eagle.

A PLUCKY WOMAN.

She Chases a Thief on Her Bicycle and Compels Him to Surrender Stolen Property.

A sneak thief entered the house of Edward J. McLaughlin, at Washingtonville, Wednesday at 3 p. m, while Mrs. McLaughlin was alone in the house.

She was at work on the sewing machine and hearing a noise in the hall went to investigate and found a colored man coming down stairs. The man coolly told her he was an insurance agent and had been to see the family up stairs, and handing her a package of insurance circulars walked out.

There is no family in the house except Mr. McLaughlin's and the lady at once suspected the true cause of the man's visit.

Going to her room she found the bureau had been ransacked and a gold watch, three gold chains, a pair of bracelets, three rings, five breast pins, three pairs of cuff buttons and two gold pencils had been stolen.

Mrs. McLaughlin ran down stairs jumped on her bicycle and started in pursuit of the thief and overtook him half a mile away.

She demanded the stolen articles. The fellow at first, assumed an air of innocence, but Mrs. McLaughlin stamped her foot in an angry way and said: "Give me those things at once!"

The man went down in his pockets and placing the articles on the grass ran away.

All the articles stolen except one pair of sleeve buttons were returned.

BAD ACCIDENT TO A BOY.

His Leg Caught in a Wagon Wheel and His Knee Fractured.

George Newham, the twelve-year-old son of Nicholas Newham, of Brooklyn, who has been summering at the residence of his grandmother, Mrs. James Carden, at Mountain Dale, was brought to Thrall Hospital, on the excursion train, last evening suffering with a compound fracture of the right leg.

The boy had jumped upon a wagon driven by Nicholas Morgan, at Mountain Dale, yesterday afternoon, at 3 o'clock. In attempting to alight after a short ride his foot caught in the revolving wheel with the above result.

Dr. Curlette was summoned and he advised sending for Dr. Mills, of this city. The latter on his arrival there suggested the removal of the boy to Thrall Hospital. It is hoped that amputation will not be necessary. The patient was resting easily this morning.

ODD FELLOWS' GRAND LODGE.

Representatives From Local Lodges Who Will Attend.

The following representatives of the various lodges of I. O. O. F., in this vicinity will leave Monday morning via the O. and W., for Utica, to attend the annual meeting of the Grand Lodge of this State, which convenes in that city on Tuesday next: E. B. Quick, Middletown Lodge; C. H. Emde, Luther Lodge; E. G. Tuthill, Orange Lodge, of Goshen; Angus Terwilliger, Sr., Minisink Lodge, of Westtown, and E. H. Van Etten, Ustayantha Lodge, of Port Jervis.

A New Business Enterprise.

Middletown has a new business enterprise, a clothing manufactory, which will be put in operation on Saturday, at No. 39 West Main street. The proprietors are Messrs. E G. Adams, of Kingston, and Ernest Burch, formerly of this city.

The latter gentleman is a son of Rev. B. H. Burch, of Newburgh, formerly pastor of St. Paul's Church in this city, and is so well known here that his name ought to be a guarantee that the business in which he has embarked will be conducted in a fair and honorable manner.

A Pleasant Outing.

A party of Middletowners had a pleasant outing at Glenmere Lake, yesterday. They spent the day there and drove to Goshen for the band concert, thus rounding out the day's pleasures. The party was composed of Misses Maude Smith, Ida Lutes and Ada Hurtin, of this city, and Ethel Richardson, of Brooklyn and Dr. C. C. Robinson and Messrs. Jas. Warn, Chas. Shoemaker and Frank Hopkins.

Funeral of Mrs. James C. Hinchliffe.

The funeral of Mrs. James C. Hinchliffe, which was held, yesterday morning, in St. John's Roman Catholic Church, Paterson, was very largely attended. As the procession passed St. Joseph's Orphan Asylum, the orphans, to whom Mrs. Hinchliffe had shown many kindnesses, took a place in the procession behind the hearse and at the grave sang two hymns that had been favorites of Mrs. Hinchliffe.

Frightened to Death.

Peter Hagens, a Passaic butcher, was bitten three months by a large mastiff, with which he had a desperate fight. There was no reason for believing the dog was mad, but Hagens worried over the fear of hydrophobia until he became insane and died yesterday in the Paterson hospital of exhaustion brought on by acute mania.

THE CONDUCTORS' CLAMBAKE.

A Very Large Crowd Present—How They Got There—The Fakirs—A Good and Well Served Bake—The Asylums Win the Ball Game.

The Conductors' Clambake, at Livingston Manor, yesterday, attracted a crowd of at least 3,000 people, more than 1,500 of whom were passengers over the Ontario and Western Railroad. The balance of the crowd drove or walked to Sherwood's Island Park, every variety and style of vehicle being pressed into service. Great loads of summer boarders on bay wagons behind teams of oxen, slowly wending their way to the park were a frequent sight, while the occupants shouted after the fashion of a college foot ball team, or sang themselves hoarse with college glees.

The crowd began to arrive at an early hour, but the proprietors of the catch-penny devices were on hand long before the people. Merry-go-rounds, "slides for life," cane ringers, "knock the baby over and you get one cigar," the popcorn men and the dispensers of "soft stuff" were soon in full operation. These people, who had all paid well for the privilege of plying their several "trades," had ample opportunity to work the crowd to the fullest extent, for the first bake, which was advertised to be served at 11:30 was not ready until two hours later. The hungry crowd grumbled, and many persons who intended to remain all day, went to the hotels in the village for their dinners and waited for their clam feast until the second bake was served.

The bake was first-class in every particular. The chicken, bluefish, corn, sweet potatoes and clams were all excellently cooked, and the hungry crowd could not get waited upon fast enough to satisfy their eager appetites.

Two thousand people were fed at the first bake, which lasted until 3 o'clock.

At 2:30 o'clock the Asylum and Genesee Base Ball Clubs crossed bats in an enclosure surrounded by a canvas fence. In previous years the base ball attractions have always been free exhibitions, and were advertised as one of the attractions which go with the bake. Yesterday, however, an admission fee of 25 cents was charged, which, of course, the crowd paid, but not without a considerable amount of "kicking."

The game proved to be a most one-sided contest, although the Genesees, who were first at bat, started out with a lead of four runs. The way-up-Midland contingent shouted themselves hoarse in their approval of the magnificent spurt, but quickly subsided when the Asylums, in the easiest possible manner, tied the score in their half.

The Genesees got one more in their half of the second inning, but after that not another representative of Utica reached third base. The Asylums continued to pile up runs until at the end of the seventh inning they had made thirty runs. With no one out and one run in the eighth, the Genesees second catcher was disabled and the game thrown up.

Then followed the greatest "fake" of the day. The ball field and grand stand were partially cleared of people, and an attempt was made to collect another quarter from the crowd to see a "boxing tournament." The crowd would not go out, and refused to pay the quarter, but finally made a proposition to the promoters of the "tournament" to pay ten cents, and accordingly that sum was collected from those who were in and from those who came in afterward.

The first and worst fake was the "battle royal" between four colored men, who, after going through three rounds of the tamest kind of boxing, were hissed out of the ring. Then two more colored men, whom the master of ceremonies introduced as the colored champions of Orange and Sullivan counties, went through three rounds of light boxing. The rounds lasted half a minute and the rests between about two minutes.

Then the "stars" of the day were announced, "Jack" Hopper and "Billy" Murray. This exhibition would have been fair, but for the extreme brevity of the rounds. This constituted the entertainment, to witness which the crowd was first asked to pay a quarter. It was dear at any price.

The crowd began to leave at 5 o'clock, but there was a sufficiently large crowd left to have a good time in the evening. The dancing pavilion was crowded all afternoon and evening, Nutting Brothers furnishing the music.

The Ellenville Citizens' Band was on hand during the day and played at frequent intervals.

INCIDENTS AND HAPPENINGS IN GOSHEN.

Guests of the Poormaster—Dr. Oakley at the M. E. Church—Secret Society Notes—Electric Cars—Personal.

From Our Regular Correspondent.

—The odd looking couple, who were described in last evening's New York papers, were in Goshen, Wednesday, and the poormaster fed them. They left here on train No. 2 for New York, as they said that city was their home.

—Rev. J. G. Oakley, of New York city, will occupy the pulpit at the M. E. church, Sunday.

—Goshen Council, A. L. of H., will hold a special meeting, Monday evening. All members are requested to be present.

—Goshen Court, A. O. F., will hold its regular meeting to-night.

—In spite of the refusal of the Board of Trustees to grant the right to run trolley cars through this village, two cars passed through this morning, via the Montgomery Branch, for Poughkeepsie.

—Homer L Green, who conducted a bicycle shop in this village, last summer, is spending a few days in town.

ALL RAIL ROUTE TO MIDWAY.

Cars Now Running Direct to Midwy Park Through Benton Avenue.

The first car to go through Benton avenue, some time ago, was No. 3. It went through on the ground with the assistance of a wire.

At 2 o'clock, to-day, the same car came through Benton avenue on rails, making the run from Midway Park to Franklin Square.

The work of laying the track through the gap on the avenue began early this morning and was prosecuted with such vigor that it was completed by 2 o'clock.

Just what the arrangement will be we have not been informed, but the annoyance of transferring on Benton avenue is done away with and the public as well as residents of that street are heartily glad of it.

The Mapes Family Picnic.

At the Mapes family reunion, yesterday, the following were elected officers for the ensuing year:

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organs itself instead of the cause of the trouble The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

MAXIM'S FLYING MACHINE.

An Otherwise Successful Trial Spoiled by a Surplus of Lifting Power.

Hiram Maxim's flying machine has gained considerable notoriety the past week. On Tuesday the inventor, with two assistants, in a machine weighing 8,000 pounds, succeeded in flying 500 yards. The experiment ended in an accident because the machine insisted on flying higher than Maxim wished. It started along the track, but broke loose from the check rail, which was intended to hold it within a few inches of the ground, and when the engineer shut off steam it dropped on the turf.

The machine, with its four side sails and "aeroplanes" set, is 100 feet wide and looks like a huge white bird with four wings instead of two. It is propelled by two large two bladed screws resembling the propellers of a ship. These screws are driven by two engines which, in proportion to their weight, are the most powerful ever made. They develop one horsepower for every two pounds of their weight. The boiler is of novel design. It consists of many tiny tubes through which is a forced circulation of water.

On Tuesday Maxim started with a pressure of 310 pounds, which had risen to 320 when he had traversed 500 yards. These 500 yards were run at the rate of 45 miles an hour, the propellers making 500 revolutions per minute. The fuel used is gasoline. The weight of the machine is 8,000 pounds, and the engines were giving a lifting power of 10,000. There was, therefore, a surplus floatatory power of 2,000 pounds. It was, of course, this surplus lifting power that did the mischief by throwing on the controlling axles a strain they had not been designed to bear.—London Letter.

CARNOT AND SEVEN.

The Strange Intertwining of the Number With Events In His Life.

An interesting discovery has just been made by a contributor to a French periodical, who has apparently a touch of superstition in his character concerning numbers. Whether or no he believes in the mysterious and uncanny influence of number 13 is not stated, but he points out that the unfortunate President Carnot was throughout his life under the influence, so to say, of the figure 7.

He was born in 1837 and entered the Ecole Polytechnique in 1857. He became president of the republic in 1887 by virtue of the seventh article of the constitution. On the 17th of May in the present year he presided at the centenary fetes at the Ecole Polytechnique. He died in the fifty-seventh year of his age and in the seventh year of his presidency.

In the carriage in which he was seated when assassinated there were, including the driver, etc., seven persons, the crime being committed on a Sunday, the seventh day of the week, by Cesario, an Italian, there being respectively seven letters in these two words.

To conclude this list of sevens, it is pointed out that M. Carnot's remains were laid in the tomb in the seventh month of the year and on the seventh day after the murder was committed. It might be added that Cesario came from Cette to commit it, and that the pronunciation of Cette and sept (seven) is identical.—London Standard.

THE DUKE OF YORK SCANDAL.

It Is Persistently Revived and Finally Officially Answered by Wales.

The story that the Duke of York some years ago contracted a morganatic marriage with the daughter of an English admiral has been persistently revived until at last it has called forth an official denial. The Prince of Wales' secretary wrote a letter to a private inquirer last week saying:

"I am desired by the Prince of Wales to state that the report to which you allude is so obviously invented for the mere purpose of causing pain and annoyance to an innocent young couple that his royal highness has always declined to allow the story to obtain further currency by any contradiction from him. There is of course not the shadow of foundation for it, but it is none the less cruel and malignant."

A rather unsatisfactory denial from the archbishop of Canterbury is also printed. The story continues to be circulated and believed. I have even been approached by the pretended possessor of the woeful secret, who was anxious for a consideration to arrange for an interview with the discarded wife at her residence, St. John's Wood.—London Correspondent.

Pressed For MacMahon's Memoirs.

The Marechale de MacMahon is being very much pressed to publish the memoirs of her husband, of which four manuscript copies are in existence, and these are in the hands of the family. The memoirs cover the Algerian, Crimean and Italian campaigns and the war of 1870-1. It may be hoped that the work will appear, as the memoirs are of the very highest interest and importance, but there must not be any editorial hacking. The memoirs ought to be printed just as the marshal left them.—London World.

One of Cupid's Tricks.

Considerable amusement has been caused in Germany by the fate which has overtaken Herr Walter, the principal supporter and assistant of Ahlwardt, the notorious leader of the Anti-Semitic party in that country. Walter was recently sent to Arnswalde, and there met a Hebrew named Miss Hermannsohn. Her dark eyes charmed the avowed enemy of her race, and a few days ago their engagement was announced. As a result, Ahlwardt is to lose his most trusted lieutenant. Love is a strange and mighty thing.

NOVEL BURIAL CASKETS.

An Audacious Innovation and an Enterprising Agent's Successful Canvass.

During the past few weeks Washington has been canvassed by the agent of one of the most peculiar pieces of funeral paraphernalia ever invented. It is a burglar and fireproof coffin, with so many strange adjuncts that a person seeing it for the first time would throw up his hands in holy horror at the audacity of the inventor and the admirable nerve of a manufacturer that will place such an article on the market.

Despite the many ghastly features in connection with these coffins and the almost blasphemous talk of the enterprising agent, this city has proved to be a lucrative field for him to work, and now a number of citizens are equipped with the strangest burial appliance of the decade. The description of the coffin as given by the agent is as follows:

"Primarily the coffin is fire and burglar proof. The case is made out of boiler iron hardened with old bone, spruce bark and leather, which forms an enamel that cannot be penetrated by chisel or drill. It is put together with angle iron and flush rivets. The locks are all on the inside, so constructed with hooks and staples, with a spring behind them, that when a pin is drawn out from the outside the bolts spring down and lock automatically, and the coffin is then locked so that it cannot be opened from the outside. The only person who can unlock and open the strange coffin is the person inside."

There are two grades of coffins—those for vaults and those to be interred in graves. The coffin to be placed in a vault is equipped with torpedoes that can be exploded from the inside. The theory of this is that in case a person is buried alive he can throw back the bolts, explode the torpedoes and warn the sexton and thus escape. The coffin to be placed in a grave has attached a strong spring and arm. In case the person inside finds that he wishes to get out all he has to do is to throw back the spring, and this arm is thereby released and cuts its way to the top, exploding a torpedo and warning the keeper of the graveyard.

These coffins are sold at so much per pound, and the first purchaser does not have to pay anything down. He simply gives a written guarantee to the manufacturer that he will pay for the coffin from his estate within 15 days after death, or, failing to do this, the manufacturer can claim his body to do what he may wish with it.—Washington News.

ARGENTINE'S DIGNITY SAVED.

Minister Zeballos Proved Equal to the Emergency That Confronted Him.

Just before the Minneapolis sailed from here a few weeks ago for the trial trip which proved so successful Dr. B. Estanislaus Zeballos, the Argentine Republic's minister to this country, who had been invited to go along as a guest, walked up the gangplank in Cramps' shipyard with a servant.

He was shown to the room which had been reserved for him, and which, in view of the crude condition of the cruiser consequent upon her trial trip, he found plainly furnished. He also discovered that the president of the trial board and Chairman Cummings of the house committee on naval affairs had staterooms that were somewhat more roomy and better situated, but no better furnished.

Dr. Zeballos at once declared that in his capacity as minister to the United States from the Argentine Republic he could not accept any accommodations on the ship which were not equal to those assigned to any other person, and he made a request for a better room. It was impossible for Captain Sargent to find such accommodation or to turn Mr. Cummings or any other official out of the quarters to which he had been assigned. Dr. Zeballos declared that, under these circumstances, he could not accompany the ship on the trip and would leave forthwith.

The officials of the Cramp company expressed their regret very politely, and Dr. Zeballos, with servant trailing behind him, walked down the gangplank and thus preserved the dignity of the Argentine Republic, but missed the most beautiful trip that has ever been made.—Philadelphia Record.

An Unappreciative Valet.

It is doubtless difficult for a conscientious valet to determine where perquisites end and theft begins, but the valet of Professor Lenbach, the famous Austrian portrait painter, seems to have been more conscientious than most valets. He loved order, and no place is so difficult to keep in order as an artist's studio. So he invariably cleared away all the sketches which he found messing about the place and sold them cheap to picture dealers or bartered them for tobacco. Professor Lenbach, having the untidy instincts of the painter, no sooner discovered this than he raised objections. The valet explained that he regarded his master's sketches as worthless. The explanation does not appear to have mollified the professor, for he is prosecuting his valet.—Pall Mall Budget.

The Chicken Cured Him.

Last Wednesday George, the 10-year-old son of Miles Mizzell, while walking in the swamp on the banks of Sutton creek, was bitten by a snake. He went at once to the house, where a chicken was cut open and applied to the wound. When the chicken was taken off, it was perfectly green. Brandy was given him to drink. Although his leg was much swollen, he is now considered out of danger.—Windsor (N. C.) Ledger.

Chicago's Fire Dove.

Speaking of the recent big fire in Chicago, The Herald of that city said, "Soaring high above the three blocks of blazing lumber and calcined walls was a white dove (the same bird fluttered its wings over the desolation of 1871), which sailed twice around the burning district and then disappeared."

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "**Castoria**" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

PROVIDENCE.

But the Others Declared That It Was Only a Drummer's Tale.

"You know," began the drummer as a soft and tender smile played over his face, "I was in St Louis about two years ago and wanted to get a check cashed. Like any other fool, I went to the bank alone, though knowing I would have to be identified. The teller threw the check back at me, and I handed him my card, a lot of old letters, the strawberry mark on my left arm, and all that, but it was no go. I must get some one to identify me, though I didn't know a soul in all that town. Do any of you believe in Providence?"

One impulsive individual said he did, but the others maintained a discreet silence.

"Well, I went out on the street and wandered up and down wondering what I should do. In the midst of the rush I caught sight of a familiar face, and I soon had the man by the arm.

"'Say! You remember me, don't you?' I asked.

"'No, sir.'

"'Never saw me before?'

"'Never.'

"'But you are in error. Didn't you used to live in Elmira, N. Y.?'

"'I did, sir.'

"'Lived on Cherry street?'

"'Yes, sir.'

"'Had a daughter named Maud?'

"'Sir, who are you?'

"'Had a daughter named Maud. Don't you remember that on a certain occasion you came home and found a young man sitting up with her and booted him out doors?'

"'Ah! I do remember.'

"'Well I am the booted young man of the dim past. Come down to the bank and identify me as Dobbs.'

"'With the greatest of pleasure.'

"'Gentlemen,' continued the drummer as he heaved a sigh, 'it is needless to add that I got my money, and that the old man had a cocktail with me.'

"But it was funny you should admit that he booted you out of his house," protested one of the audience.

"How funny? I was there, and I was booted. Why conceal the fact? He was the girl's father. I don't belong to any church, but I do seek to be a good man, and I ask you if the hand of Providence was not in it? I spark a girl. Her father comes home and boots me. Years elapse, and just when I want $250 on a check to get out of St. Louis I run across the booter, and he helps me out. If not Providence, what is it?"

"It's a blamed old drummer's yarn," growled two or three men in chorus, and then all rose up to drink another lemonade.—Detroit Free Press.

He Gave It Up.

The different ideas held by people of different conditions of life are amusingly illustrated by the unexpected responses sometimes received by those whose desire to do good leads them to step across the boundary line of wealth and poverty.

"How are your children, Mrs Blank?" a charitable visitor asked of a tenement house mother in New York the other day.

"They're all well, ma'am, perfectly well."

"You ought to be thankful for that, with so much sickness about."

"Yes, I suppose I ought to be thankful, but I tell you, ma'am, when they're well they eat an awful lot."

A Boston lady was pleading with a teamster who kept beating one of his horses unmercifully.

"Oh, is there any need of whipping him so? Is there any use in it?" she asked.

"Divil a bit, ma'am," replied the driver civilly, and with the air of a man who does his duty even when it is in vain "I've hiked the baste till I'm played out, an' I'm a bit o' that."—Munsey's Magazine.

THE COMMON COUNCIL.

PROCEEDINGS OF LAST NIGHT'S REGULAR MEETING.

Orchard Street to be Paved—A Meat Inspector Appointed—The South Street Sewer Again Ordered—Cost of Brick and Asphalt Paving.

A regular meeting of the Common Council was held last evening, all the members being present except Mr. Luddington, who was at the clambake, and Mr. Baldwin, who is looking after his political future, and who failed to show up notwithstanding a threat made to declare his seat vacant.

President Iseman, of Phœnix Engine Co., asked that the company's truck be put in proper condition for the visit to Newburgh. Referred to Fire Committee with power.

A petition asking that Orchard street be paved with Mack brick blocks, signed by the following property-owners, was read:

Harriet A. Low, Harvey Everett, F. B. Denton, H. W. Wiggins and Sarah J. Bradner.

A communication from Harriet A. Low, objecting to the paving of a portion of the street as already ordered, and favoring the paving of the whole street, was read.

Chief Engineer Thorpe asked for permission for Excelsiors and McQuoids to take their trucks to Binghamton and Phœnix Engine Co. to Newburgh. Request granted.

Action of fire companies at the last meeting was confirmed.

APPOINTED MEAT INSPECTOR

A communication of the Mayor announcing the appointment of J. S. Sutcliffe, V. S., as meat inspector for a period of thirty days was read.

THE ORCHARD STREET PAVING.

The matter of the paving of Orchard street was taken up. Mr. F. B. Denton, one of the petitioners, stated that over 1,400 feet, or more than one-third of the frontage, was represented on the petition.

Mr. Greene wanted to know if there was enough money in the permanent fund to do the work.

The clerk said he could not tell, as the bills were not all in, but that the Civil Engineer ought to be able to give some idea of the cost of permanent work ordered. Mr Smith said the city's share of the two North street pavements would be about $3,000.

Mr. Greene moved that the petition for paving be granted and a map of grade be prepared by the engineer.

The fact that the petition called for Mack block and Canton block had been ordered for the other portion of the street was discussed, and the general opinion seemed to be that there should not be two kinds of brick on the same street.

Mr. Bowler moved to refer to the Street Committee

Mr. Funnell said the work ought to be done now, while the street is torn up. Somebody said there was no contract and that it would take time to advertise for bids.

CITY COULD DO THE WORK.

Mr. Reed said he did not see why the city could not do the work The people's money had been going out of town long enough Our own people want work, and as it seems to be profitable for others to do the work for us, there is no good reason why the city should not have all the benefit The city can buy brick as cheap as the contractors and it was the duty of the Council to look after the interest of the taxpayers and working people as well

Mr Mance wanted to know the object of referring to the Street Committee

Mr Reed said it was well to know just what we are doing Its reported that one-third of the property owners named in the petition, but others may come in

A vote on the motion to refer to Street Committee was lost, Messrs Bowler and Mance alone voting aye, and the original motion was carried.

A motion of Mr Greene that all abandoned lamp posts not in use be removed and those not set as they ought to be, be properly set, was carried

A request of Chief Engineer Dolpeter that a hose be given the patrol wagon was referred to the Fire Committee.

BILLS ORDERED INDEFINITE.

Mayor Stansbury said the certificate authorized to be issued to Orr Bros., could not be accepted in bank because of the indefinite clause, which stipulated that it is payable when the assessments are collected. He said the firm was entitled to a settlement and asked that he be authorized to issue negotiable paper in place of the certificate

On Mr Greene's motion it was ordered that the Mayor be authorized to give a note on the part of the city for 60 days for the amount due Orr Bros, and the certificate of indebtedness be cancelled

The Street Superintendent was authorized to make necessary repairs to the Canal street bridge

Mr Greene asked that the bids for the Southerly sewer be laid before the Council, Estimates were forthcoming, but subsequent events proved that the sewer had to go through, and the question of cost of pipe did not enter into the consideration so far as the Council is concerned. The people who will have to pay the bill however, ought to know just how much the pipe cost and whether it cost more than it ought to

On Mr. Greene's motion it was ordered that 5 per cent. be added to all sewer assessments not paid within 60 days.

Mr. Greene moved that the work on the South street sewer ordered some time ago, be commenced at once and that 5 per cent. be added to all assessments remaining unpaid ninety days after completion.

On Mr. Greene's motion the sewer committee was authorized to advertise for bids.

Crosswalks were ordered on Washington street at Spring street and Sprague avenue.

PERSONAL DAMAGE CLAIMS TO BE PAID.

On motion the Mayor was authorized to sign drafts in settlement of the Crandall and McCourt cases.

The amount agreed upon in settlement of Mrs. McCourt's case was $459 69, and in the Crandall case the judgment was for $1,000 and the costs $141 58, all for injuries by falling on sidewalks.

Mr. Mance handed in his resignation as Chairman of the Street Committee, but the matter was laid on the table.

MAY PURCHASE A STONE CRUSHER.

Messrs. Greene, Funnell and Bowler were appointed a committee to make inquiry and report at next meeting, in regard to the purchase of a stone crusher.

The Mayor was authorized to issue a satisfaction of the bonds of J. C. Degnan, late collector.

Thos. Reilly asked for appointment of janitor of engine houses. Referred to Fire Committee.

THE PAVING OF ORCHARD STREET.

On motion of Mr. Mance it was ordered that Orr Bro's. be given the contract for the Orchard street paving with Canton blocks, if acceptable to property owners, at the price made for the other portion of the street,—$2 28 per yard,—and the Mayor and Street Committee were authorized to see property owners.

The curbing and graveling of walks, asked for on East Main street some time ago, was ordered as soon as map of grade is prepared.

COST OF NORTH STREET BRICK PAVING.

The final estimates of the brick paving on North street showed the total cost, $9 400, and the amount due Orr Bros $2 115

COST OF JAMES STREET PAVING.

The City Engineer's estimate of cost of the relaying of James street is $519 60, and this amount was ordered added to the note be given Orr Bros. by the Mayor

It was after midnight when the Council adjourned without auditing any of the bills on file with the clerk.

LOGTOWN

Katydids—Locusts—Bridge in Need of Repairs Returned to the City—Other Items

Correspondence ARGUS and MERCURY

—Katy dids have made their appearance.

—The song of the locust has been heard around her for the past week

—School meeting was held on Tuesday night of last week, no teacher yet as we know of

—Mr David Halstead and family, of Westtown, visited at Ed. Elston's, last Sunday

—Mrs. Lizzie Johnson, of Hamburg, has been spending a few days with her uncle, Geo. Elston.

—The bridge commonly known as "long bridge" is in need of repair.

—Mrs. C D. Reed and daughter, who have been visiting at L. Decker's, have returned to their home in Brooklyn. Mr Reed came Saturday night to accompany them home. Mrs Decker went with them for a two we ks' visit among friends and relatives in Brooklyn and New York city.

—The Greenville M. E Sunday School picnic was held Wednesday in Clark's Grove.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Suicide—O. and W. Bridges—Acid Factories Shutting Down—Prosperous Boarding House Keepers—Too Many Cemeteries Sudden Death of An Estimable Lady—Livingston Manor's New Iron Bridge—The Great Drouth—The Delaware Valley Fair.

Correspondence ARGUS and MERCURY.

—Mike Palmater, of Trout Brook, took an overdose of laudanum with suicidal intent and died from its effects, Wednesday.

—The O. and W. Company is putting new decks on all the bridges that there are any doubts about.

—The acid factories will all shut down as fast as their stock on hand is cleaned up.

—One dollar a bushel seems to be the price of potatoes at nearly all points up this way.

—The summer boarding house keepers in and about Liberty, all claim that they have done as well so far this season as in seasons past.

—Rockland and Roscoe have more cemeteries than there is any need of. These two villages with a combined population of 1,000 have four places in which to bury their dead.

—The drouth is the all prevailing topic at present. I suppose every body knows it's dry and as it is the custom of all correspondents to write about the drouth, I would be making a poor fist of it if I didn't follow suit. The most of us have seen springs and streams lower before, but not at this time of the year. I want to say once more that it's dry.

—Those who have the management of the Delaware Valley Fair held at Walton are putting in their best licks to make it a howling success, this year. From the start this has been and is one of the best of the many agricultural fairs held in that county, and it don't get the State appropriation either. If your city had the State appropriation for your young fair it would help out considerably.

—Mrs. Oliver Sherwood, of near Roscoe, died suddenly from heart disease, Monday evening. She was sitting in a chair at the time sewing, and nearly all of her children were at the play of Uuncle Tom's Cabin that was being played in the village, half a mile away. When the news of her sudden death was brought into the tent it cast a general gloom over the assembled audience. She was an estimable lady beloved all who knew her. Deceased was aged about sixty years.

—The Rockland-Roscoe and Livingston Manor people are at loggerheads over the new iron bridge at the Manor. The Rocklanders and Roscoeites were willing that the Manorites should have a wooden bridge, but they were never in favor of the expensive one now being built The Commissioner of Highways question was fought out at last town meeting, resulting in favor of the Manor by a majority of two. It looks at present as if the Manor was on top, unless there should be a long and expensive litigation, that in the end would cost as much before it was settled as would bridge every stream in the town. The Manor people are charged with wanting this expensive bridge built before they seced from the town and become incorporated, as incorporation seems to now be the burning question in that village

CAPITAL AND SURPLUS.

All That is Needed for the Successful Operation of Trusts.

Everybody wants to know the secret of getting rich and the best way to do it Every business man who has been doing business on a cash basis is beginning to understand that co-operation is the only safe and certain way to success Labor is coming to the front and employers are still more eager to organize their works It only requires the normal machinery of the country to move in a normal way, for consumption to make demands upon production

When the last story of the late panic comes to be written and the troubles in detail to it, one of the remarkable features will be the effect upon railways and trade, upon all business of $5,000,000 people, of those who had to and those who had not need to economize, but did so in every possible way. When one family has the old stove with the cracked lids and pipes pieced over the broken pane of glass and does not renew any of the furniture or crockery, when they wear last year's clothes and go from food which might be luxuries to food which simply supports life, the economies and diminished which follow a total or partial loss of income

Precisely that process has been going on for two thirds of a year among 90 per cent of our population. It has made clear the fact that the American people who are charged, and probably justly, with being the most extravagant people in the world, can live closely as anybody when it becomes necessary. But the effect upon merchants, middlemen and carriers in the volume of their business and their profits is disastrous beyond any process which has ever affected the business of the country.—Chauncey M Depew in New York Tribune

When a person takes a cold it is not infrequently accompanied by a cough. Constant coughing if not relieved at once by Dr. Bull's Cough Syrup, the ready cure for all such affections, will weaken the patient, intensify the irritation causing the cough until headache and fever are developed, often ending in inflammation of the air-passages.

"LABBY" SCORNS A TITLE.

The British Radical Leader Reads Queen Victoria an Ironical Sermon.

In a recent issue of Henry Labouchere's Truth appears the following delightfully ironical paragraphs from his caustic pen:

Thank heaven the birthday of her majesty is over, and I am safe for one more year! Since the queen has taken to celebrating her natal day by knighting or baronetting those connected with journalism I see the day approach with fear and trembling lest my sovereign should be minded to knight or baronet me Never is there a creation of "sirs" without some of them assuring me that, far from asking to be made one, they did not even know that this was contemplated until they saw their names in The Gazette I invariably believe what any one tells me, therefore the danger seems to me to be a real one My objection is a double one. I prefer the plain "mister" of a British citizen, and I should fear, were I knighted, that my readers would suspect me of being actuated rather by gratitude than by sincere admiration whenever I felt called upon to praise her majesty's advisers

Not indeed that I object to any one being knighted if this adds to his pleasure in existence A knighthood at least has the advantage of not descending to the son of the gentleman who becomes a "sir." I was discussing the other day with a friend of mine who had declined the honor whether it was an advantage to a parliamentary candidate or the reverse. He contended that, such is the innocent snobbism of the Anglo Saxon race, the advantage is considerable There is a certain amount of truth in this

Although not myself desirous of being knighted or baronetted or of being officially allowed to wear a colored ribbon or a metal disk, I sincerely wish the queen many happy returns of the day, and trust that she may have many other occasions to confer birthday honors on her subjects, provided that she does not include me ever in the distribution We must judge of sovereigns by sovereigns, and certainly the queen has been the best monarch that has sat upon the British throne The unreasoning loyalty that elevates a sovereign into a sort of demi-god has disappeared, and the institution of monarchy is now judged very much on the merits or demerits of the incumbent of the throne. The queen enjoys a personal popularity which must be far more gratifying to her than the abject sentiment that leads free men to grovel before a crown, whether it be on the head of the vilest or the best of human beings What I object to in the long run is not so much the monarch—who is as with us no sovereign regnant does not rule—but the courtiers and the flunkeys that it brings into existence Charles II was not a commendable sovereign but I always have had a liking for him on account of his undisguised contempt for his courtiers.

A Good Appetite

ONE WOMAN'S REWARD.

A GREAT SHOWER OF CONFIDENCE

Such as Never Descended upon Any Other American Woman.

[SPECIAL TO OUR LADY READERS.]

IT'S a glorious possession.

The most famous physician wins it from a comparatively small number.

One woman, and only one, has won it from tens of thousands during the past twenty years.

Loving confidences, heartfelt gratitude, loyal devotion, is showered upon her name because of salvation from a miserable existence, and the peace and joy of restored health through her wonderful skill.

Lydia E. Pinkham's name will go down the ages as the friend of all women.

Her Vegetable Compound has saved thousands from the terrors of female complaints.

Backache, despondency, fainting, spinal weakness, avoiding society, bearing down, are all symptoms of trouble in the womb.

The Vegetable Compound removes the cause of the trouble.

Read what Mrs. S W. White, who lives at 816 Holly Street, West Philadelphia, Pa., calls a family blessing.

Thus she writes to Mrs. Pinkham:—

"I have suffered for ten years with female complaints of the worst form, accompanied by severe spinal trouble, causing incessant backache, weakness of the stomach and nervousness

"I gave up all hope of ever being well again Just then someone recommended Lydia E. Pinkham's Vegetable Compound. I followed your directions and treatment until I am now a perfectly well woman.

"I gave it to my two daughters, aged fourteen and sixteen years, and they are fine, healthy girls.

"It is surely a blessing to our family."
